

WiscWeeds Waterhemp Project

SAMPLE ID: _____

University of Wisconsin-Madison Cropping Systems Weed Science

Farmer's name: _____

Collaborator's name: _____

Farmer's contact information: _____

Collaborator's contact information: _____

Field GPS coordinates & address: _____

Field Soil information: OM: ____% , pH ____ , Texture: Sand ____% , Silt ____% , Clay ____%

Field History Information

Year	Crop	Tillage (YES/NO)	Manure (YES/NO)	PRE-Emergence Herbicide Program	POST-Emergence Herbicide Program	Waterhemp distribution (e.g., edges, entire field)	Waterhemp infestation (e.g., low, medium, high)
2014	Crop: Planting date: Harvest date:	Date(s) & type(s):		Product: Rate: Date:	Product: Rate: Date:		
2015	Crop: Planting date: Harvest date:	Date(s) & type(s):		Product: Rate: Date:	Product: Rate: Date:		
2016	Crop: Planting date: Harvest date:	Date(s) & type(s):		Product: Rate: Date:	Product: Rate: Date:		
2017	Crop: Planting date: Harvest date:	Date(s) & type(s):		Product: Rate: Date:	Product: Rate: Date:		
2018	Crop: Planting date: Harvest date:	Date(s) & type(s):		Product: Rate: Date:	Product: Rate: Date:		

Additional Information/Observations:

WiscWeeds Waterhemp Project

University of Wisconsin-Madison Cropping Systems Weed Science

Seed Collection Protocol:

- Collect seed heads from 20 mature waterhemp female plants. Collect plants as far apart as possible within the field to represent the population.
- Place all seed heads from the same field in the same paper bag (leave paper bags open until samples are dry).
- Properly ID the sample bag and fill out the "Field History Form". Crop management and herbicide information are crucial for our research. Weed distribution and density within a field will be a "polite guess". For sample ID, use county and farmer's name.
- Store the samples in a dry environment. Please mail samples to Rodrigo Werle, 1575 Linden Drive, Madison, WI 53706.
- For questions, contact Dr. Werle: rwerle@wisc.edu or 608-262-7310 (www.wiscweeds.info).

Waterhemp plants have short petioles, no hairs on the leaves and stems, leaves are lanceolate and waxy.
