FUNDS RECEIVED REGISTER (pink form)

It's important to place funds received in one of the categories below. The other category should not be used to lump all funds that you are unsure of where they belong.

- **Fund Raising** – money received for a product or service delivered by the club or group (*Examples – funds club receives for selling pizzas, food sales, auction food stands, bake sales, candy bars, car wash, etc.*) This is fund-raising done by your club, not by the county.
- **Member Dues** – Money collected from members for participating in the group. This allows youth to be a member and have the right to vote. Dues are for the benefit of the member. The income can be used for member participation in educational and recreational programs as well as covering any county enrollment fees, extra project fees. Members vote on the amount of dues and how all 4-H club or group funds are used. This amount should normally equal the amount of the expenses for **Member Dues** category on the *Funds Disbursed Register* (yellow form).
- **Donations** – This includes funds given to the group for a specific purpose or experience but the member or volunteer receiving the benefits of the money given is not directly related or connected to the donor. This item includes grants, donations and bequests from any source without the expectation of a specific or named individual receiving some type of benefit. (*Examples: special emphasis grants, endowment fund grants, memorials received.*)
- **Investment Income** – This category includes any interest earned from a bank account, endowment fund, trust fund or any other investment. Interest earned that is allowed to roll over into the principle on an investment must be reported in this line. Interest is recorded in the year it is credited (deposited) to your account.
- **Income from Youth Development Services** – Money collected for member participation in a youth development experience. Benefits are for specific members. There is a connection between the person giving the money (such as a parent, guardian or relative) and the recipient of the experiences. Fair premiums that the club or group receives would also be recorded in this line item. (*Examples: registration fees for field trips, project learning days, 4-H camps, Fair Planter, Fair Booth, Herdsmanship awards, etc.*)

If t-shirts are being sold only to program participants or included in the program fee, then the income and disbursement should be documented under Youth Development Services. If t-shirts are being sold to any individual as a fundraiser, they must be accounted for under Fundraising for both *Funds Received* and *Funds Disbursed*.

- **Other Income** This will be used for pass through items (where the club collects the money and pays it out again). (*Examples: county fish fry tickets, youth fair exhibitor fees, parent/leader passes, In & Out transfers to/from savings, etc.*) This total should usually equal the amount of **Other Expenses** on the *Funds Disbursed Register* (yellow form).
- **NSF Check & Fee** Put on as disbursed money out (because bank took money) (returned check that was deposited) also on Deposit sheet when made good.
