2024 Wisconsin Women in Agriculture Conference

From Dodge County Extension Regional Dairy

Women at the forefront of Wisconsin's diverse agriculture community should plan to attend the Wisconsin Women in Agriculture Conference this January 12 and 13, 2024 at the Three Bears Resort in Warrens, WI. The Wisconsin Women in Agriculture Conference will be a one and a half-day event designed to provide research-based and practical educational opportunities for all women interested in any aspect of agriculture. Through workshops and presentations, attendees will learn how to better manage risk, improve their farms, and become more successful farm owners, operators, and ag professionals.

The 2024 conference will feature speakers involved in agriculture, evening entertainment, and opportunities for networking with other agriculture organizations, sponsors, and participants. The conference will have breakout sessions focused on the topics of balancing farm & work life, estate planning & farm transition, financial management, and overall farm operations.
